1. Introduction

The module name of this coursework is **Introduction to Information Systems**. Its module code is CC4057NI, and module leader is Mr. Hrishav Tandukar. This is the first group coursework of Introduction to Information Systems which was assigned on 31st March 2024 and the deadline for this coursework is on Friday, 17 May 2024, before 01:00 PM. This coursework contains 60% of the overall module.

1.1 About the Project

In this project, we have designed and developed an e-commerce website called “Grocerymandu” that sells various grocery items. By using HTML5, CSS3, and JavaScript, we have designed and developed this website. We have created five web pages for this project. The names of the web pages we designed are the home page, product page, blog page, research page, and contact page. The home page includes flash sales and includes some contents of every other web page used on this website. The product page includes various grocery items with their prices. On this website, we have also created a feedback form where customers can give their suggestions. A blog page can contain a demonstration about how technology has affected daily life and business. While creating the website, we encountered many difficulties and challenges, but with the help and guidance of our lecturer, Mr. Rashish Neupane, we successfully created the website.

1.2 Goals and Objective

1.2.1 Goals

The goal of this project is to create and develop an e-commerce website. Our goal is to create an interesting and dynamic coursework website with visual assistance and interactive aspects.

1.2.2 Objectives

Objective:

- Create a seamless shopping experience for customers.
- Reach a wider audience through online ordering and delivery services.
- Increase sales revenue.

Features:

- User-friendly navigation and search functionalities.
- Wide range of grocery items with detailed product information.
- Smooth checkout process.

Technologies Used:

- CSS: Styles elements for visual appeal.
- JavaScript: Adds functionality and interactivity.
- HTML: Forms the foundation, ensuring proper structure and content.

Result:

- Empowered to create a strong and user-friendly eCommerce platform for grocery items.

1.3 Use of HTML, CSS, JS

Hypertext Markup Language (HTML) is the basic scripting language used by web browsers to render pages on the world wide web (Hayes, November 24, 2022). It offers the content and organization of web pages. The various components of a webpage, including headings, paragraphs, graphics, links, and more, may all be defined using HTML. It enables us to set up the content in a hierarchical fashion, which facilitates accurate webpage interpretation and display in browsers. These elements are defined by HTML tags, and by combining them, we can give our website the layout and organization that we want. It is the foundation of every website and is a necessary language for creating web pages. In this project we have used different html tag such as division tags(<div>), meta tags (<meta>), image tags (), table tags (<table>), anchor tags (<a>), paragraph tags (<p>), line break tags (
), heading tags (<h1>).

CSS stands for Cascading style sheets, and it describes to the user how to display HTML elements on the screen in a proper format (javatpoint, n.d.). CSS is the language that is used to style HTML

documents. In simple words, cascading style sheets are a language used to simplify the process of making a webpage. It allows us to control the layout, colors, fonts, and other visual aspects of a website.

JavaScript is a dynamic programming language that's used for web development, in web applications, for game development, and lots more and it allows you to implement dynamic features on web pages that cannot be done with only HTML and CSS (Megida, March 29, 2021). With JavaScript, we can create interactive forms, handle user input, manipulate and update content on a webpage, and much more.

1.4 Verdict

We have encountered a variety of languages. With the help of JavaScript, HTML, and CSS, we were able to develop a dynamic and eye-catching platform. The addition of a distinct navigation bar gives the entire design a distinctive touch and makes it stand out. Our website is designed with the user's experience and attention to detail in mind. The primary goal is to familiarize ourselves with website building, specifically with the process of creating an engaging and visually appealing webpage. It is evident that this endeavor has taken a great deal of time and consideration. Our website is an excellent resource for anyone interested in grocery items because it is both visually appealing and functional.

2. Discussion and Analysis

Since We discussed the value of optimizing webpages, which entails changing the design and font size to guarantee a readable and attractive printed result. We have done this to build various webpages.

2.1 Selected Text Editor

The text editor used in this project is Visual Studio Code (VS-code). Visual Studio Code is a free, lightweight, and extremely effective source code editor that works with Windows, macOS,

and Linux. It can be used on both desktop and web platforms. Additionally, it is adaptable because it supports a variety of files, such as HTML for HTML pages, CSS, and JavaScript (Heller, JUL 8, 2022).

2.2 Tools used for developing wireframes.

The tools used for developing wireframes in this project is Balsamiq Wireframes. Balsamiq is a user interface design tool that allows us to create wireframes. It can be used to make digital sketches of our idea or concept for an application or website, allowing for debate and understanding before any code is written (Balsamiq, n.d.).

2.3 Home page

The screenshot shows the homepage of the grocerymandu.com website. At the top, there is a header bar with a logo, navigation links (Home, Products, Blog, Research, About us), a search bar, and a 'Shop now' button. Below the header, a main banner features the text 'Bringing freshness to your doorstep, Everyday!' and a 'Shop now' button. A 'Flash sale' section follows, displaying three items: 'Chicken Breast' (NPR.285, Rs.500, Add to cart), 'Egg' (NPR 420, Rs.450, Add to cart), and 'Nescafe Classic Coffee' (NPR 285, Rs.450, Add to cart). The bottom section contains a 'Read' article titled 'The Impact of technology on Daily Life and Business' with a 'Read more' button. The footer includes a logo, a statement about customer satisfaction, payment method information, and social media links.

HOW TECHNOLOGY AFFECTS DAILY LIFE AND BUSINESS.

Introduction:

Technology is the backbone of modern e-commerce, playing a pivotal role in its success. From improving user experience to streamlining operations, technology is the driving force behind growth and innovation in this sector. Artificial intelligence (AI) stands out as a key technological advancement, with AI-powered chatbots and personalized product recommendations reshaping how customers interact with online stores. Additionally, mobile technology has transformed the e-commerce landscape, enabling consumers to shop on the go. The integration of various technologies like AI, machine learning, and big data has made it a necessity for businesses aiming to stay competitive in today's digital age. By leveraging the power of technology, e-commerce companies can drive sales, enhance customer satisfaction, and maintain a leading edge in the market.

Positive Impact of Technology on Life & Business:

In our daily life, it has helped us by improving our communication. With the help of technology, we have access to news, information, messages from users from all over the world. The access to information has become very easy and vast. Due to help of technology, we also have a very advanced lifestyle. If we compare our lifestyle in how life was in the past when people were living in villages and now when people are living in cities, it has changed a lot. Likewise, in business, technology plays a very vital role as well, technology plays a very vital role. Businesses all over the world can grow better with the help of technology. Technology gives access to consumers all over the world to have a look at businesses all over the world. To have a look at a business, technology is the main factor among all. There are a lot of brands in the world, and they are all over the world. For example, of a company like Coca-Cola, there are a lot of companies. The competition in that field is pretty tough. Not every business in that scene can be successful. But with the help of technology, it can be more efficient and effective than ever. There are many companies all over the world that produce softdrinks. Among them, Coca-Cola is one of the most renowned companies in this sector. One of the reasons that the Coca-Cola company is so successful is because of the right use of technology in order to globalize its brand. Globalization is something that has been achieved by Coca-Cola in order to attain a greater reach. Through proper research with the help of technology, the company was able to create skillful advertisements and create proper partnerships with bottling companies and distributors all over the world that helped it to be known so much.

Negative Impact of Technology on Life & Business:

Now, if we talk just about the positive sides of technology, it is like taking a look at one side of a coin. Technology in fact has negative impacts and not just one, multiple of them. Privacy is one of the things that the advancement in technology has degraded. People have less privacy because of having access to the advanced technologies online and offline. People who are addicted to the use of social media, they are more likely to be more affected by the negative impacts of technology. Another negative impact of the use of mobile phones, internet among teenagers has affected their social skills issues as well and reduced creativity too. One of the creation of technology, social media, is something that has become an integral part in most people's lives. The use of social media among teenagers has increased rapidly. It has become a part of their daily routine. It is something that is very useful, but it is very dangerous as some people using it have a lot of negative intentions. Cyberbullying is one of the things that social media is responsible for.

Impact of Technology on selling of grocery items:

Technology has changed how we shop for groceries. With online platforms and apps, you can now buy groceries from home. They offer lots of choices and easy price comparisons. Plus, they deliver right to your door, sometimes even on the same day. This means stores can reach more people, and they use data to suggest things you might like. It's making grocery shopping easier and more personalized for everyone, and it's just the beginning.

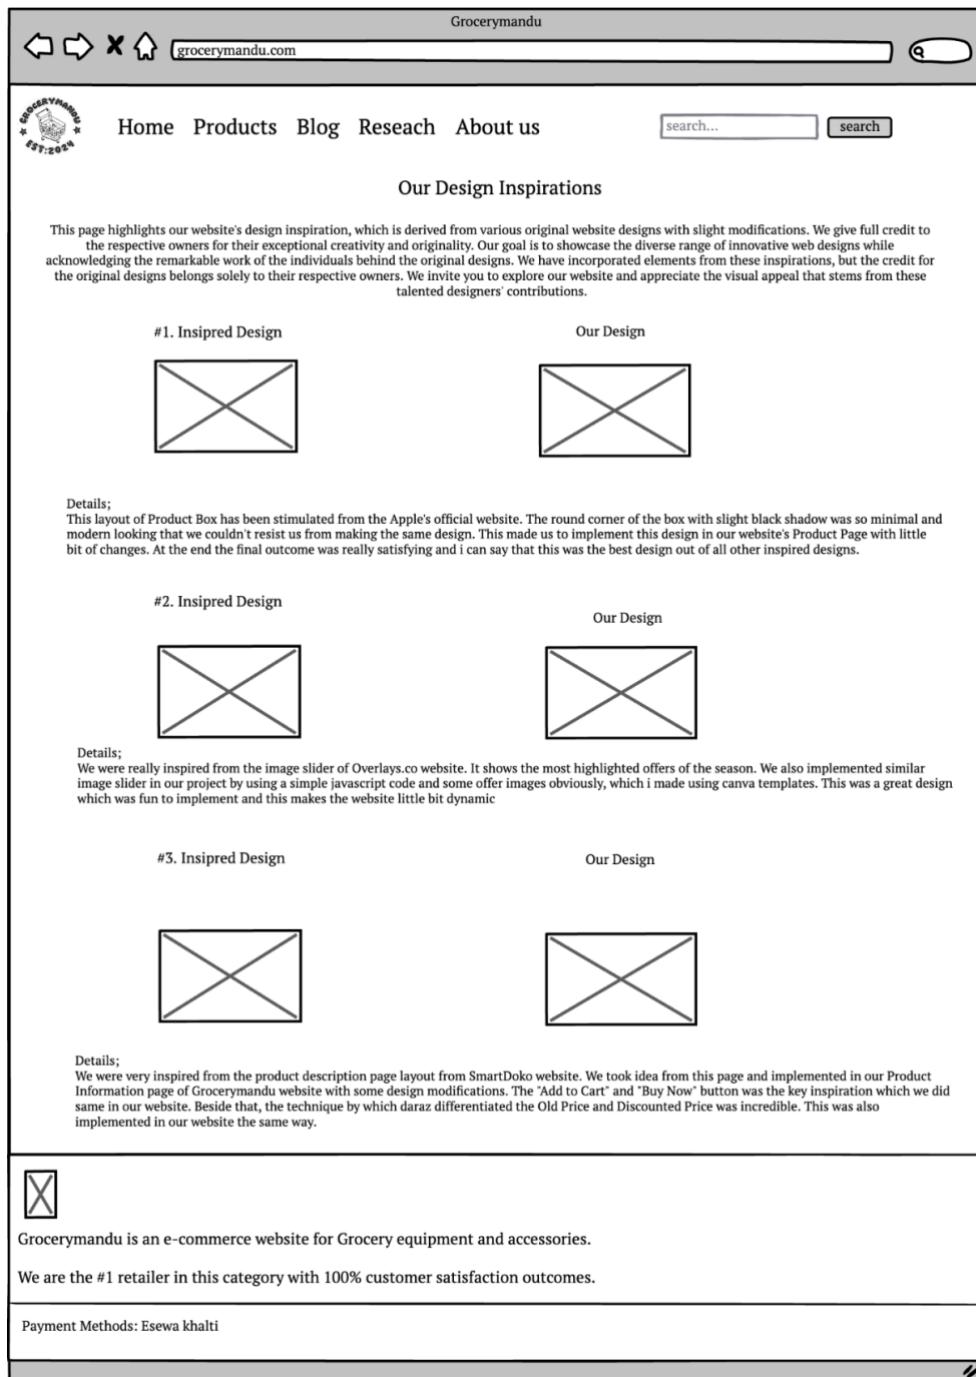

Conclusion:

In conclusion, the impact of technology on both daily life and business is undeniable, offering a mix of positive and negative effects. While it has revolutionized communication, improved lifestyles, and facilitated business growth and globalization, it has also raised concerns about privacy, addiction, and social issues. However, the transformation it has brought to the selling of grocery items exemplifies its positive influence, making shopping more convenient, personalized, and accessible. As technology continues to evolve, it is crucial for society to embrace its benefits while addressing its challenges to create a more balanced and sustainable future.

Our Design Inspirations

This page highlights our website's design inspiration, which is derived from various original website designs with slight modifications. We give full credit to the respective owners for their exceptional creativity and originality. Our goal is to showcase the diverse range of innovative web designs while acknowledging the remarkable work of the individuals behind the original designs. We have incorporated elements from these inspirations, but the credit for the original designs belongs solely to their respective owners. We invite you to explore our website and appreciate the visual appeal that stems from these talented designers' contributions.

#1. Inspired Design

Details:
This layout of Product Box has been stimulated from the Apple's official website. The round corner of the box with slight black shadow was so minimal and modern looking that we couldn't resist us from making the same design. This made us to implement this design in our website's Product Page with little bit of changes. At the end the final outcome was really satisfying and i can say that this was the best design out of all other inspired designs.

#2. Inspired Design

Details:
We were really inspired from the image slider of Overlays.co website. It shows the most highlighted offers of the season. We also implemented similar image slider in our project by using a simple javascript code and some offer images obviously, which i made using canva templates. This was a great design which was fun to implement and this makes the website little bit dynamic.

#3. Inspired Design

Details:
We were very inspired from the product description page layout from SmartDekho website. We took idea from this page and implemented in our Product Information page of Grocynamazia website with some design modifications. The "Add to Cart" and "Buy Now" button was the key inspiration which we did same in our website. Beside that, the technique by which daraz differentiated the Old Price and Discounted Price was incredible. This was also implemented in our website the same way.

#4. Inspired Design

Details:
The 'About Us' section offers a glimpse into our company's mission and values, while the team member image section showcases our diverse and talented team with their names, positions, and brief bios.

#5. Inspired Design

Details:
This simple footer element which shows the copyright reserved claims was inspired from Iti.com.np website. This was a simple but great way to display the copyright info. I also added the some information which adds cherry on top element to this footer.

Figure 8: Screenshot of research page

2.7 About us page

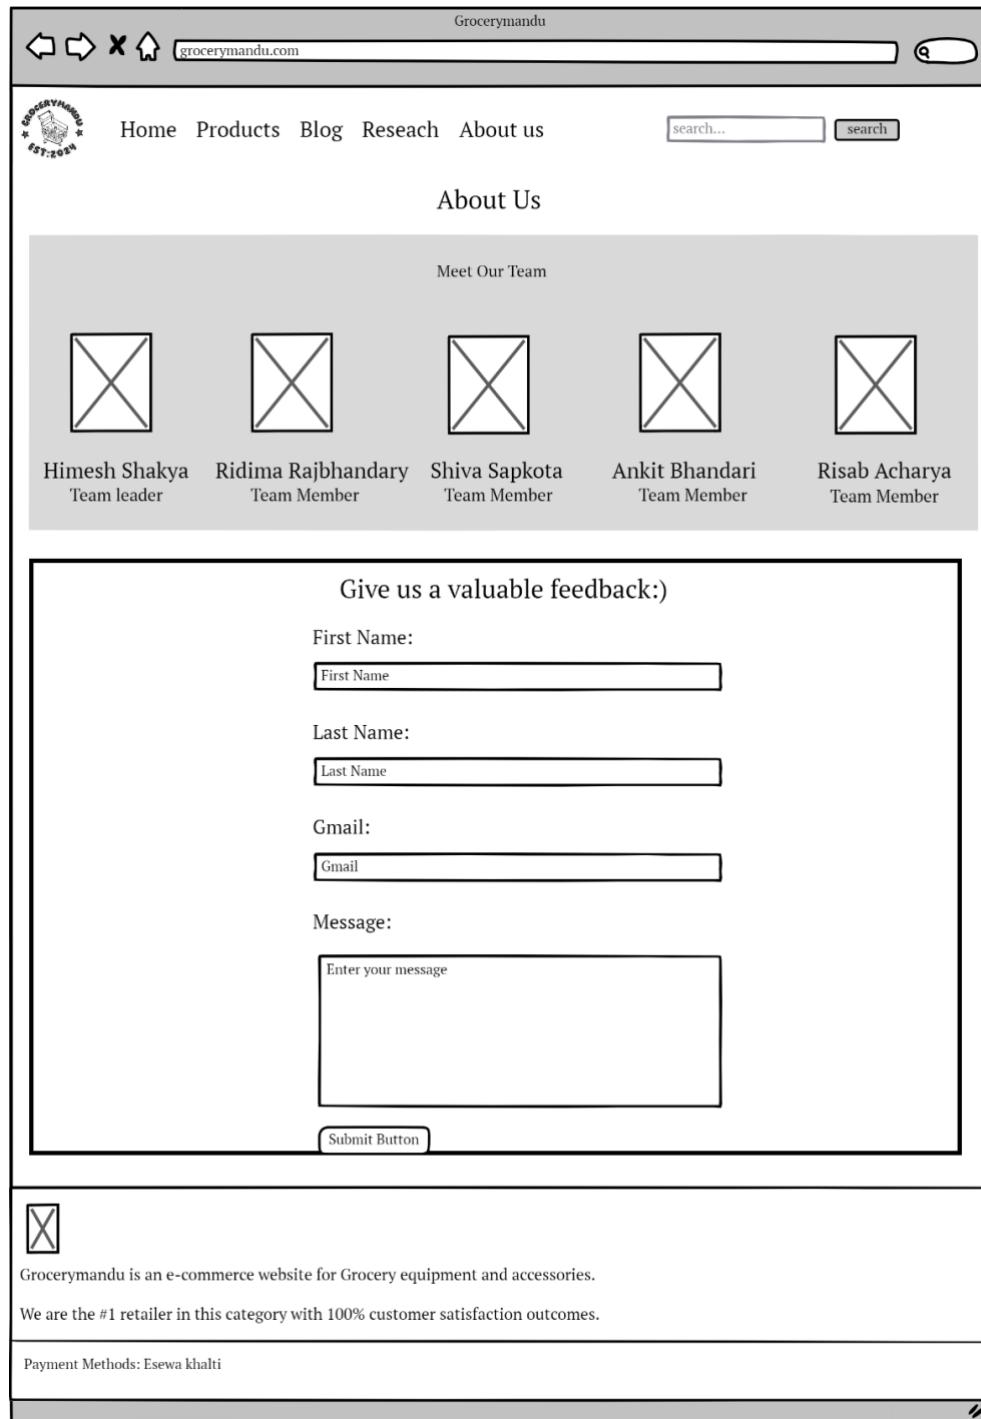

Figure 9: Wireframe of about us page

The screenshot shows the 'About Us' section of the Grocerymandu website. At the top, there is a navigation bar with links for Home, Products, Blog, Research, and About Us. A search bar is also present. The main content area has a yellow header titled 'About Us' with a sub-section 'Meet Our Team Member's'. It features five team members: Rishab Acharya (Team Member), Himesh Shakya (Team leader), Ridima RajBhandari (Team Member), Shiva Sapkota (Team Member), and Ankit Bhandari (Team Member). Each member has a circular profile picture and their name and title below it. Below this, there is a feedback form with fields for First Name, Last Name, Gmail, and Message, along with a 'Submit Button'. The footer contains the company logo, a statement about being an e-commerce website for grocery equipment and accessories, payment partners (IMEPAY, VISA, Mastercard, Cash on Delivery, ePay, and Khalti), and a copyright notice.

About Us

At Grocerymandu, we are dedicated to providing you with a seamless shopping experience for all your grocery needs. Our extensive range of products, coupled with our commitment to quality and customer satisfaction, makes us your go-to destination for online grocery shopping. From fresh produce to pantry essentials and everything in between, we've got you covered. Discover convenience like never before with our user-friendly platform and swift delivery services. Join thousands of satisfied customers and experience the ease of shopping with Grocerymandu today!

Rishab Acharya

About Me:

I'm **Rishab Acharya**, originally from Damak city in Jhapa district. My interests include coding, video editing, and photo editing. With a natural flair for creativity, I constantly explore innovative methods to express myself through visual storytelling. My fascination with technology and digital media has led me to delve into video and photo editing, which has evolved into a rewarding hobby. As a self-taught programmer, I enjoy experimenting with different programming languages to create my own projects. I'm enthusiastic about embracing new challenges, leveraging my skills and passion for continuous learning and growth.

3. Testing

3.1 Test 1: Form Validation [JavaScript]

Objective	To check if the form validation pop-up are working or not.
Action	<p>1. First action: All the requirements were filled except “Last name” and submit button was clicked.</p> <p>2. Second action All the requirements were filled and submit button was clicked.</p>
Expected results	<p>1. The message "Empty fields are present! Please enter the values..." will be displayed at first action.</p> <p>2. The message "Thank you for your feedback!!!" will be displayed at second action.</p>
Actual results	<p>1. The message "Empty fields are present! Please enter the values..." was displayed at first action.</p> <p>2. The message "Thank you for your feedback!!!" was displayed at second action.</p>
Result	The test is successful.

Table 1: Test 1

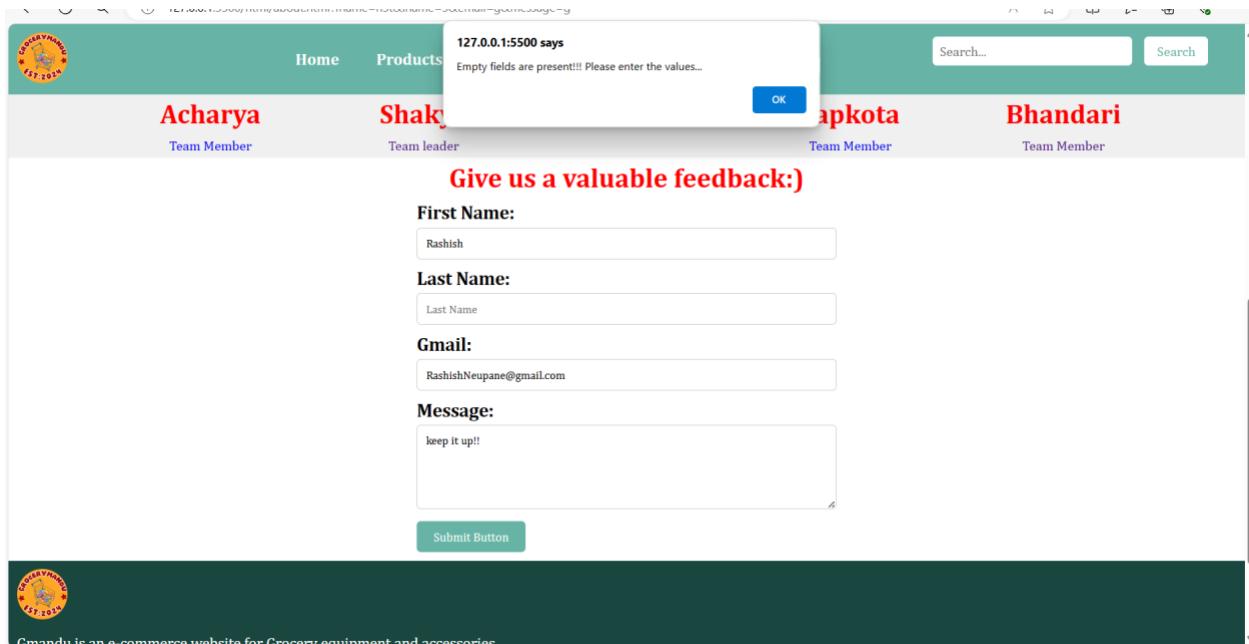

Figure 13: Form Validation [JavaScript]-1

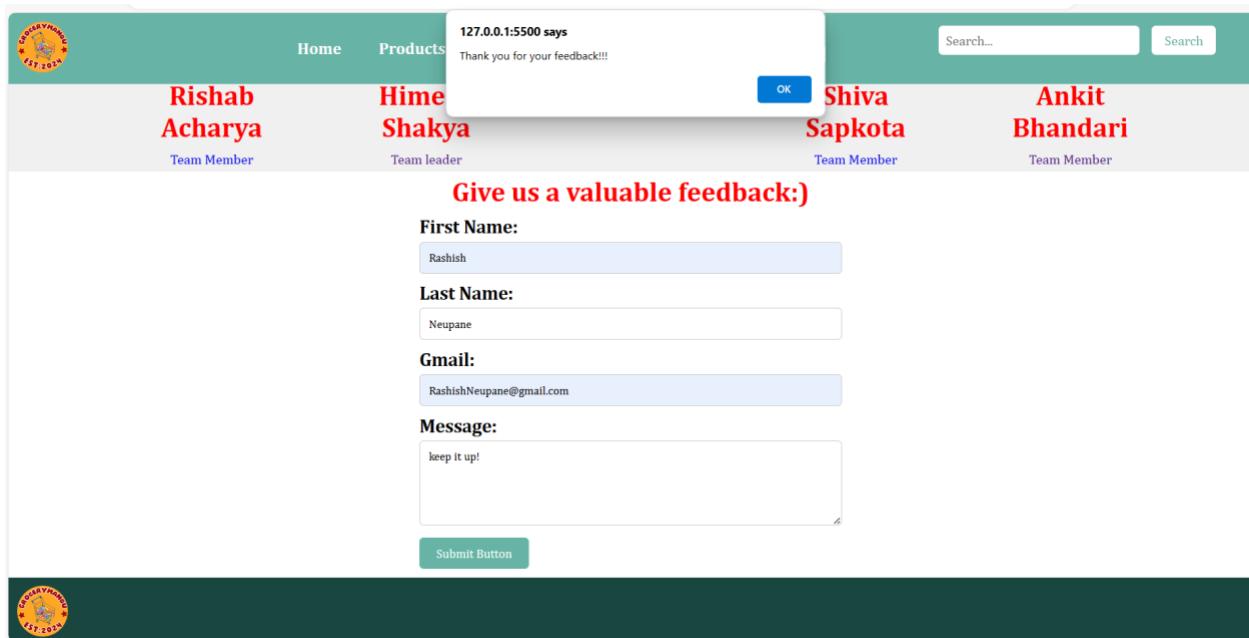

Figure 14:Form Validation [JavaScript]-2

3.2 Test 2:Slider content [JavaScript]

Objective	To check if the image is being changed every 3 seconds.
Action	Product page is clicked.
Excepted Result	The display image of product page will be changed every 3 seconds
Actual Result	The display image of product page was changed every 3 seconds

Result	The test was successful.

Table 2: Test 2

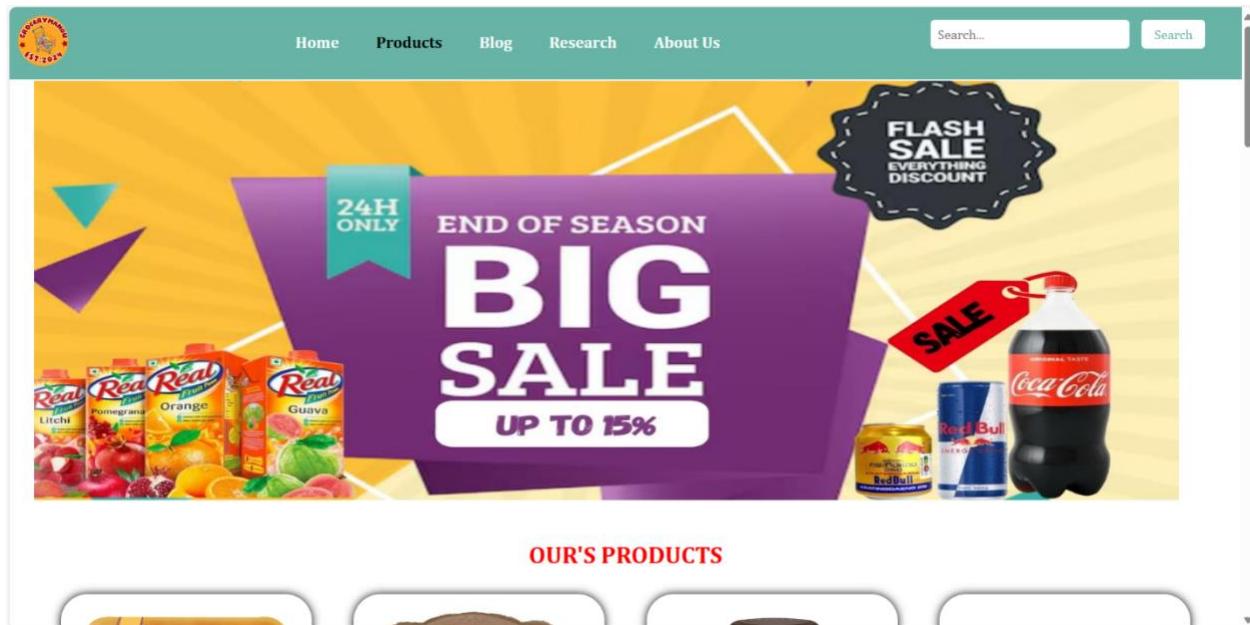

Figure 15:Slider content [JavaScript]-1

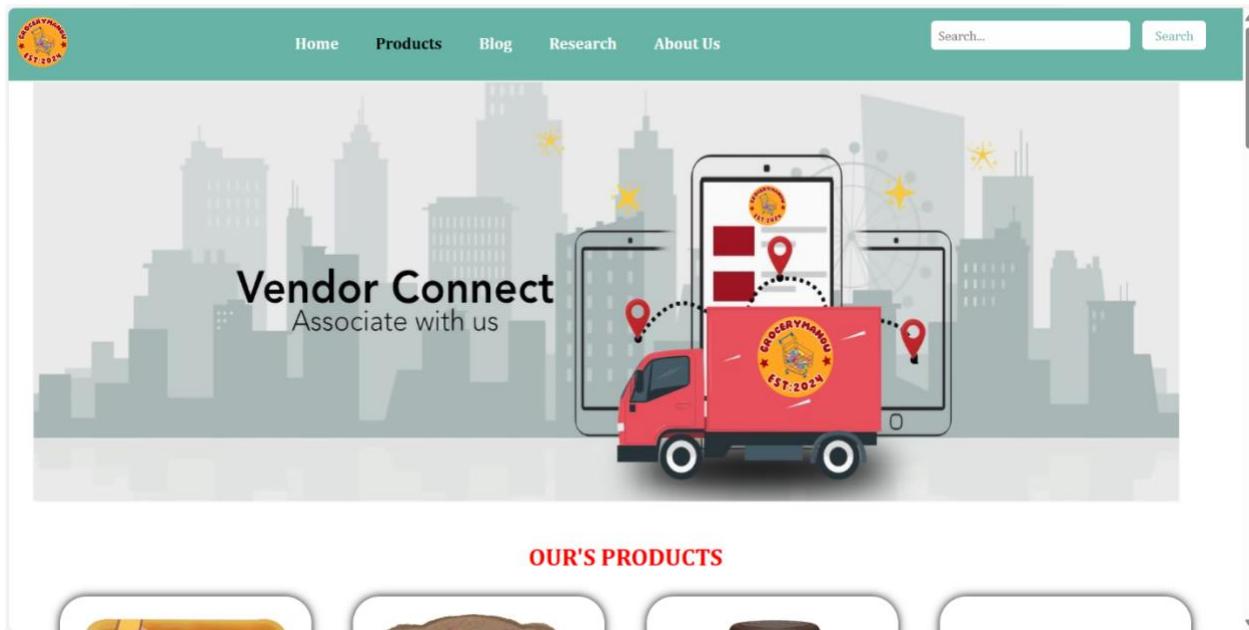

Figure 16:Slider content [JavaScript]-2

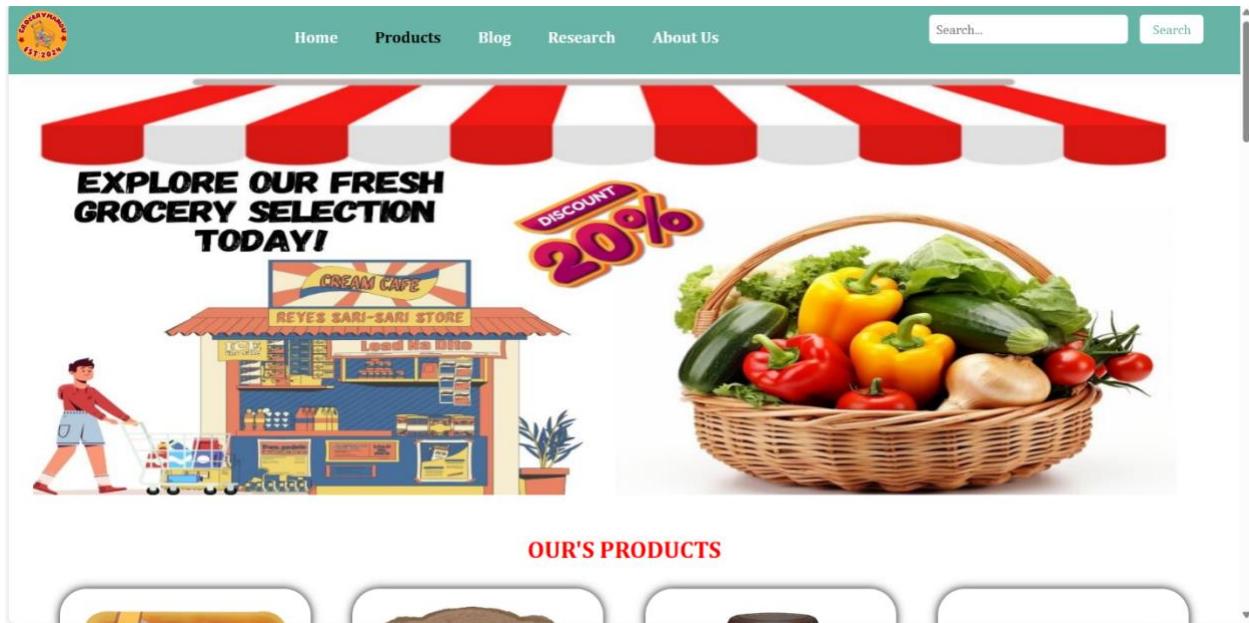

Figure 17:Slider content [JavaScript]-3

3.3 Test 3: Pop up [JavaScript]

Objective	To check if the Add to cart pop-up are working or not.
Action	Product page was opened and “Add to cart” button was clicked. .
Expected results	1.The message "This feature will be available soon!" will be displayed.
Actual results	1.The message "This feature will be available soon!" was displayed.
Result	The test is successful.

Table 3: Test 3

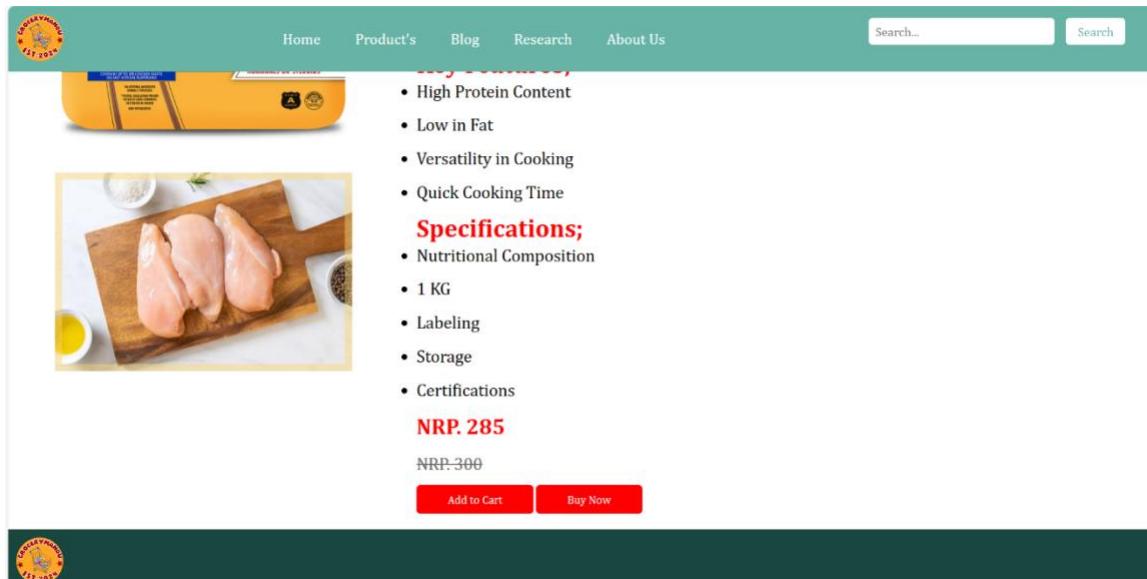

Figure 18:Pop up [JavaScript]-1

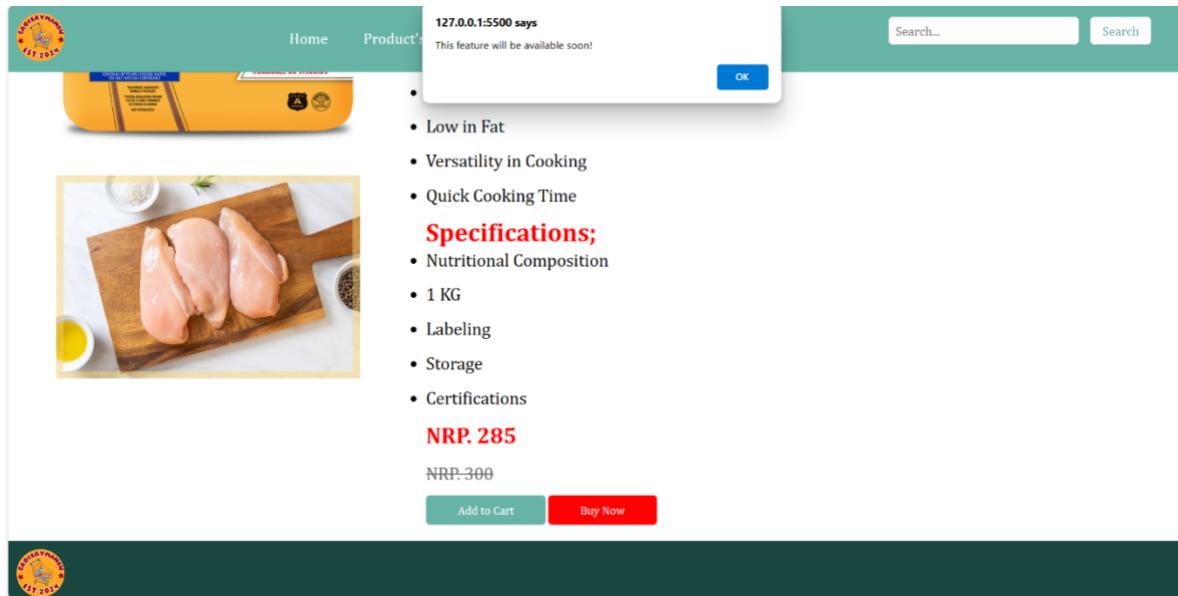

Figure 19:Pop up [JavaScript]-2

3.4 Test:4 Nav Hover Effect Testing

Objective	To check if nav hover effect is working or not.
Action	Cursor was hovered over the nav bar links.
Excepted Result	The nav bar links should get black colour.
Actual Result	The nav bar links get black colour.
Result	The test was successful.

Table 4: Test 4

The screenshot shows a website for a food product. At the top, there is a teal header with a circular logo on the left. To the right of the logo are five navigation links: Home, Product's, Blog, Research, and About Us. Below the header is a search bar with a placeholder 'Search...' and a 'Search' button. The main content area has a white background. It features a large image of a Tyson All Natural Fresh product box containing boneless/skinless chicken breasts. To the right of this image is a section titled 'Chicken Breast' in bold red text. Below this title is a sub-section titled 'Product Description:' in bold red text. The text explains that a chicken breast is the underside of a chicken. It also mentions that each chicken has two breasts and that when a recipe calls for a chicken breast, it generally means half the breast, not the whole breast. The text further states that the breast consists of the two halves of a breast. To the right of the product image is another image showing two raw chicken breasts on a wooden cutting board, surrounded by some seasonings like salt and pepper. Below this image is a horizontal line of text: '127.0.0.1:5500/html/Research.html'. On the far right side of the page, there is a blue arrow pointing upwards and to the left, indicating a hover effect over a menu item.

Figure 20:Nav Hover Effect Testing-1

The screenshot shows a website header with a logo, navigation links for Home, Product's, Blog, Research, and About Us, and a search bar. The main content is titled 'Chicken Breast' in red. It features an image of Tyson All Natural Fresh boneless skinless chicken breasts. Below the image is a section titled 'Product Description' which includes a paragraph about chicken breasts. There is also a 'Key Features' section with a bulleted list and a 'Specifications' section with its own list.

Figure 21:Nav Hover Effect Testing-2

3.5 Test:5 Link Testing [Internal and External]

Objective	To check if external and internal links are working or not.
Action	External and internal links were clicked.
Expected Result	External link should open the respective website whereas internal link should open the expected webpage within the website.

Actual Result	External link should open the respective website whereas internal link should open the expected webpage within the website.
Result	The test is successful

Table 5: Test 5

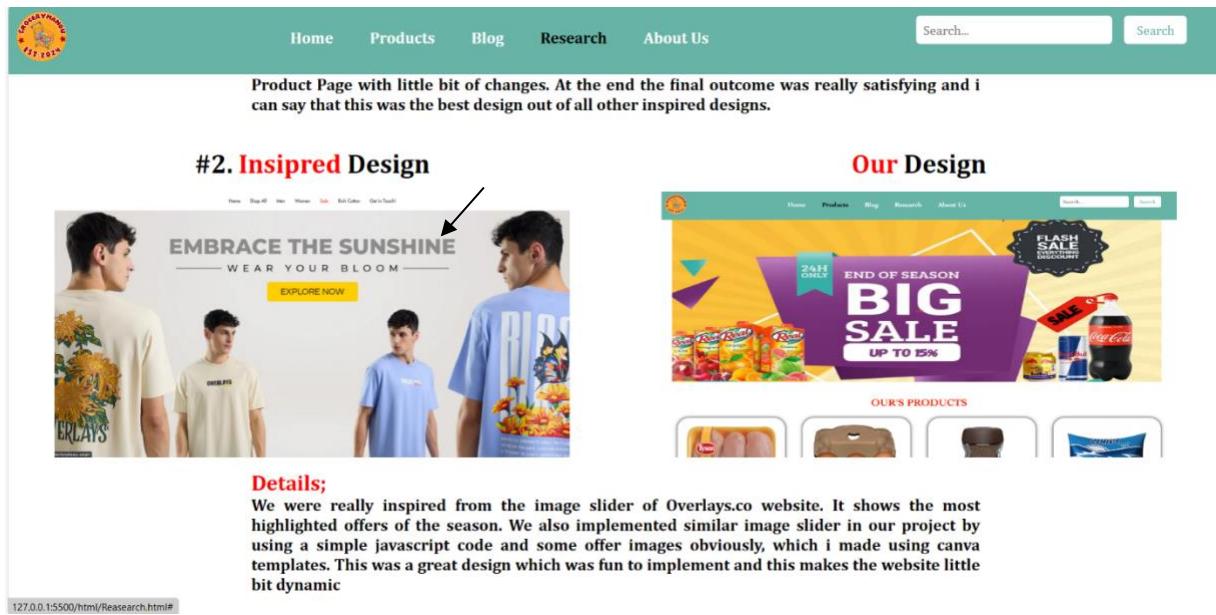

Figure 22:Link Testing [Internal and External]-1

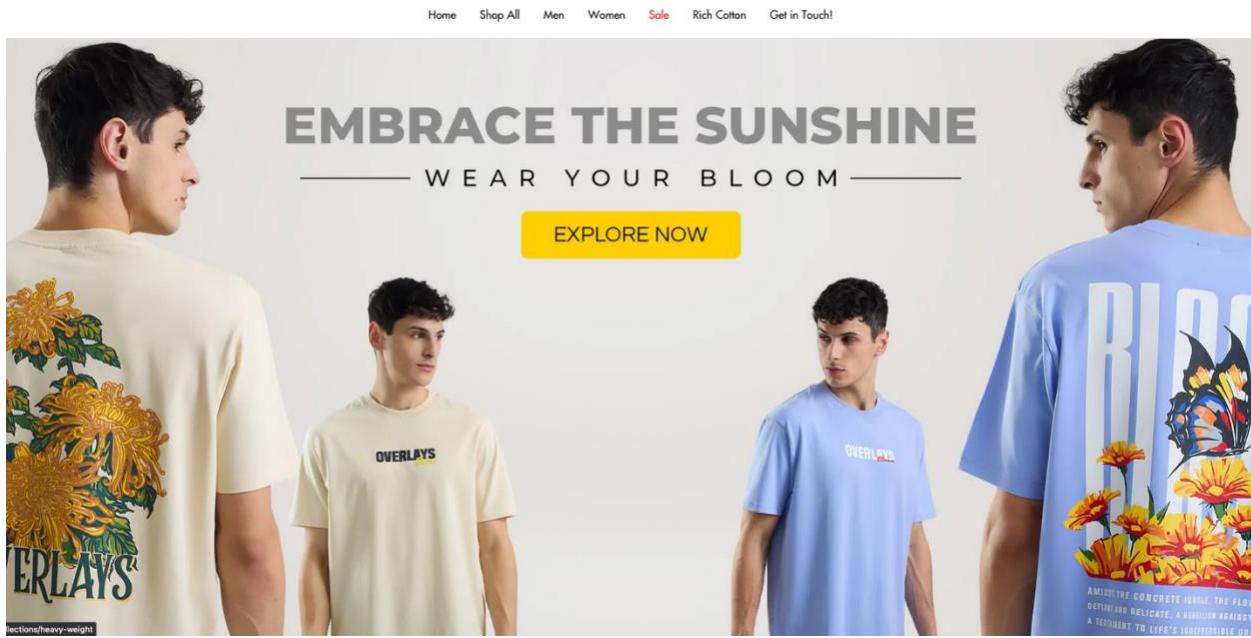

Figure 23:Link Testing [Internal and External]-2

5. Conclusion

To sum it up, our project revolved around creating an impressive website for grocery items using HTML, CSS, and JavaScript. We applied our coding skills to craft a visually appealing, interactive, and user-friendly website.

By integrating HTML, CSS, and JavaScript, we developed a dynamic platform that not only informs users but also captivates them with features like image sliders and product comparison tools. This project was a testament to our creativity and technical abilities while offering a valuable resource for those interested in grocery items.

Throughout our project journey, we sought advice from our teacher, Mr. Rashish Neupane, which proved invaluable given that this was our first major project. Following coursework guidelines, we successfully completed the assignment and began drafting our report. Despite encountering challenges during coding, we found the process enjoyable and enriching.

This project significantly enhanced our responsiveness in website development, particularly by implementing responsive design techniques to ensure the website's accessibility across various devices.

In conclusion, this project was not only a showcase of our creativity and technical skills but also deepened our understanding of user experience and accessibility in web design. As the Grocerymandu group, we are immensely proud of the outcome and believe that striving to do our best ultimately leads to perfection.

There have been changes on the lapse that our local agency Excellence in Town Marketing has been
providing services in the Houston market. While I'm still enjoying rolling the shopping cart through
the aisles of a grocery store, the list is growing for those that prefer to order online their
groceries and either do the pick up or choose for delivery.

    <h1> HOW TECHNOLOGY AFFECTS <span style="color: red; ">DAILY LIFE</span> AND <span
        style="color: red; ">BUSINESS.</span> </h1>
</b>

<div class="header">
    
</div>

<h1 style="color: red; text-align: center; font-size: 48px; ">Introduction:</h1>

<div class="text">
    <p>Technology is the backbone of modern e-commerce, playing a pivotal role in its success. From improving
        user experience to streamlining operations, technology is the driving force behind growth and innovation
        in this sector. Artificial intelligence (AI) stands out as a key technological advancement, with
        AI-powered chatbots and personalized product recommendations reshaping how customers interact with
        online stores. Additionally, mobile technology has transformed the e-commerce landscape, enabling
        consumers to shop on-the-go through mobile apps and responsive websites. Embracing technology is no
        longer just an option; it's a necessity for businesses aiming to stay competitive in today's digital
        age. By leveraging the power of technology, e-commerce companies can drive sales, enhance customer
        satisfaction, and maintain a leading edge in the market.

<!-- next section for positive impact -->

<section>

<h1 style=" text-align: center; margin-top: 15px;color: red; font-size: 48px; ">Positive Impact of Technology on
Life & Business:</h1>

<div class="text">
<p>
In our daily life, it has helped us by improving our communication. With the help of technology, we have
access to news, information, messages from users from all over the world. The access to information has
become very easy and vast. Due to help of technology, we also have a very advanced lifestyle. If we
compare our lifestyle to how life was for the people in the past who were living without technology, we
can see that we definitely have it easy in a lot of different sectors. Likewise, in the field of
business as well, technology plays a very vital role. Businesses all over the world can grow better with
the help of technology. Technology gives access to consumers all over the world to have a look at
businesses all over the world. To enhance a business, technology is the main factor assisting it. There
are a lot of businesses all over the world. If we take an example of a single sector of business, like
of food, there are a lot of companies. The competition in that field is pretty tough. Not every business
in that sector can be successful. But with the help of technology, a business can definitely be more
efficient. Lets take an example: There are a lot of companies all over the world that produce sodas/soft
drinks. Among them, CocaCola is one of the most renowned companies in this sector. One of the reasons
that the Coca-Cola company is so successful is because of the right use of technology in order to
globalize its brand. Globalization is in fact another facility of technology that helps the business to
```

attain a greater reach. Through proper research with the help of technology, the company was able to create skillful advertisements and create proper partnerships with bottling companies and distributors all over the world that helped it to be known so much.

<section>

<h1 style="text-align: center; font-size: 48px; margin-top: 15px; color: red;">Negative Impact of Technology on

Life & Business:</h1>

<div class="text">

<p>

Now, if we talk just about the positive sides of technology, it is like taking a look at one side of a coin. Technology in fact has negative impacts and not just one, multiple of them. Privacy is one of the things that the advancement in technology has degraded. People have less privacy because of having access to the advanced technologies online and offline. People who are addicted to the use of electronic devices have to suffer various physical and mental issues in the long run. Because of the extreme increase in the use of mobile phones, internet among teenagers it has affected their social skills issues as well and reduced creativity too. One of the creations of technology, social media, is something that has become an integral part in most people's lives. The use of social media among people has increased a lot. It has also increased a lot of crimes happening online. Social media is very

addictive. It is also very dangerous as some people using it have a lot of negative intentions.

Cyberbullying is one of the things that social media is responsible for.

<section>

<h1 style="text-align: center; font-size: 48px; margin-top: 15px; color: red;">Impact of Technology on selling

of grocery items:</h1>

<div class="text">

<p>

Technology has changed how we shop for groceries. With online platforms and apps, you can now buy groceries from home. They offer lots of choices and easy price comparisons. Plus, they deliver right to your door, sometimes even on the same day. This means stores can reach more people, and they use data to

suggest things you might like. It's making grocery shopping easier and more personalized for everyone, and it's just the beginning. </p>

</div>

</div>

</section>

```
<!-- this is the last section for conclusion. -->

<section>

<h1 style="text-align: center; font-size: 48px; margin-top: 15px; color: red;">Conclusion:</h1>

<div class="text">

<p>In conclusion, the impact of technology on both daily life and business is undeniable, offering a mix of positive and negative effects. While it has revolutionized communication, improved lifestyles, and facilitated business growth and globalization, it has also raised concerns about privacy, addiction, and social issues. However, the transformation it has brought to the selling of grocery items exemplifies its positive influence, making shopping more convenient, personalized, and accessible. As technology continues to evolve, it is essential for individuals and businesses alike to navigate its implications carefully, leveraging its benefits while addressing its challenges to create a more balanced and sustainable future.</p>

<h2>About Me:</h2><br>

<p style="text-align: justify; font-size: 28px;">I'm <span style="color: red; font-weight: bold;">Himesh Shakya</span>. I am 19 years old. I currently reside in Kathmandu, Nepal. I am passionate about singing and exploring new destinations, which are my favorite hobbies. I am currently pursuing my studies in computing at Islington College. Studying computing has fueled my curiosity and passion for technology, and I am eager to dive deeper into this field. In my free time, you can often find me singing melodies or planning my next travel adventure to discover new cultures and experiences. I am excited about the possibilities that lie ahead and look forward to connecting with like-minded individuals who share a passion for music, travel, and technology.

  <h2>About Me:</h2><br>

  <p style="text-align: justify; font-size: 28px;">I'm <span style="color: red; font-weight: bold;">Rishab Acharya</span>, originally from Damak city in Jhapa district. My interests include coding, video editing, and photo editing. With a natural flair for creativity, I constantly explore innovative methods to express myself through visual storytelling. My fascination with technology and digital media has led me to delve into video and photo editing, which has evolved into a rewarding hobby. As a self-taught programmer, I enjoy experimenting with different programming languages to create my own projects. I'm enthusiastic about embracing new challenges, leveraging my skills and passion for continuous learning and growth.</p>

<p style="text-align: justify; font-size: 28px;">I'm <span style="color: red; font-weight: bold;">Shiva

```

Siddhiram Sapkota. I am a 19-year-old currently studying computing at Islington College in Kathmandu, specifically residing in the vibrant area of Budanilkantha.

I have a passion for exploring the outdoors and capturing moments through hiking, trekking, and photography.

Traveling to new places excites me, allowing me to embrace diverse landscapes and cultures. Studying computing at Islington College has provided me with invaluable knowledge and skills in the realm of technology. I am enthusiastic about delving into various aspects of computing, from software development to data analytics.

I am looking forward to expanding my horizons and contributing to the dynamic learning community at Islington College.

        <h2>Product Description:</h2>
        <p>Donuts are quintessential pastries, renowned for their irresistible combination of soft, fluffy texture and indulgent flavor. These delightful treats are crafted from dough, which is carefully fried to a
    </div>
</div>
```

golden brown hue, creating a crispy exterior that gives way to a melt-in-your-mouth interior. Once fried, donuts are often adorned with an array of toppings or glazes, ranging from classic options like powdered sugar or chocolate to more adventurous flavors like maple or fruity concoctions.</p>

<h3>Key Features;</h3>

Irresistible combination of fluffy, chocolate-flavored dough.

Coated with a decadent chocolate glaze for an indulgent treat.

Perfectly sweet and satisfying for any chocolate lover.

Convenient snack or dessert option for any occasion.

<h3>Specifications;</h3>

 Fluffy texture, chocolate-flavored.

 May contain wheat, dairy, and eggs. Check packaging for specific allergen information.

Store in a cool, dry place, away from direct sunlight.

Enjoy as a snack, dessert, or treat with a cup of coffee or hot chocolate.

      <h2>Product Description;</h2>
```

```
<p>Donuts are quintessential pastries, renowned for their irresistible combination of soft, fluffy texture and indulgent flavor. These delightful treats are crafted from dough, which is carefully fried to a golden brown hue, creating a crispy exterior that gives way to a melt-in-your-mouth interior. Once fried, donuts are often adorned with an array of toppings or glazes, ranging from classic options like powdered sugar or chocolate to more adventurous flavors like maple or fruity concoctions.</p>
```

```
<h3>Key Features;</h3>
```

```
<ul>
```

- Irresistible combination of fluffy, chocolate-flavored dough.
- Coated with a decadent chocolate glaze for an indulgent treat.
- Perfectly sweet and satisfying for any chocolate lover.
- Convenient snack or dessert option for any occasion.

```
</ul>
```

```
<h3>Specifications;</h3>
```

```
<ul>
```

- Fluffy texture, chocolate-flavored.
- May contain wheat, dairy, and eggs. Check packaging for specific allergen information.
- Store in a cool, dry place, away from direct sunlight.
- Enjoy as a snack, dessert, or treat with a cup of coffee or hot chocolate.
- Certifications

      <h2>Product Description;</h2>
```

<p>Ramen, a beloved Japanese dish, is a soul-warming noodle soup that captivates with its complex flavors and comforting simplicity. At its heart lies a rich and flavorful broth, often crafted from a blend of pork, chicken, or seafood, simmered to perfection over hours to achieve depth and richness.

Accompanying

the broth are springy noodles, cooked to the ideal texture, providing a satisfying chew with every slurp. </p>

<h3>Key Features;</h3>

Typically made from pork, chicken, or seafood, simmered with spices and seasonings.

Al dente wheat flour noodles providing a satisfying texture.

Customization Ability to adjust broth richness and choose preferred toppings.

Comfort Food Known for its comforting and warming qualities, perfect for cold days or when seeking comfort.
